PICTORIAL HISTORY

THE UNITED STATES,

FROM the discovery of America by the Northmen to the present time.—By Jonn Flaver, Processor of Bellies Lettres of the High School of Philadelphia.—Embellished by upwards of three hundred original cuts, designed by Croome expressly for this work.—Now in progress of publication, and to be completed in twenty monthly numbers, at the unparalleled low price of twenty-five cents each; the whole forming four octave volumes.

A full and copious History of the United States for families and libraries, has long been called for by the American people: the publisher has now the pleasure and satisfaction of presenting to the public such a work. It is the result of years of study and research by one of our ablest writers; and in order that the noble deeds and striking scenes connected with our history may be properly depicted, the publisher has engaged the services of a superior and distinguished artist.

In carrying out this undertaking, a great investment

In carrying out this undertaking, a great investment of capital has been required, and much mechanical skill employed to render it a work worthy of the admiration of every lover of his country; and one to which every patriot me point as an evidence of the great degree of perfection and refinement our liberal institutions have secured us.

The first number appears this day, (April 1st); the succeeding ones will appear promptly on the first of each month until the whole is perfected. At the conclusion of each volume, a complete index and title page will be furnished.

clusion of each volume, a complete index and title page will be furnished.

The publisher pledges himself that the embellishments in the whole work shall exceed three hundred, and equal those in the first or specimen number in style and execution. The distribution of the pictures will of course be regulated by the subject, some chapters being much more susceptible of rich pictorial embelishments than others. The succeeding parts will contain the same number of pages as this. Persons at a distance, who are desirous of obtaining this work direct from the publisher, will please remit five dollars, free of expense of postage, (Postmusters' franks can always be obtained for remittances for periodicals,) and the whole will be sent.—Clubs, by a remittance of ten dollars, will receive three copies; by a remittance of fifteen, five copies. Postage of each number, under an hundred miles, seven and one-half cents.

Individuals desirous of acting as agents for this work, are advised to make application.

W ILL be published, in the City of Washington, by the 20th of April, the first number of the weekly

"GERMAN NATIONAL GAZETTE." a newspaper devoted to the political, social, and lite-rary in erests of the day. Terms: Per annum \$2 00, strictly in advance. A number of correspondents in Europe, amongst them some of the ablest German writers of the day, are engaged for the paper, which will also contain English articles. In connection with the above is published the monthly

of mammoth size, now the largest paper in the Union. The eighth number will be issued on the 1st of May. Terms: \$1 50 per annum, in advance. Both papers sent to one address for \$3 00, in advance.

The "German in America" is a paper principally of a literary character, and intended to be an interpreting medium between the literary genius of the Saxon and Anglo-Saxon race. It will exhibit some of the best literary product oos, especially poetical, in each language, with parallel versions in the other. To those therefore of the English-American public, who are studying the German language, or wish to become formine with German literature, this paper is strongly recommended. It contains a complete ist of all books, periodicals, etc., published in Germany. Business men who deal, or wish to deal, with the American population of the German tongue, will find it greatly to their advantage to adsertise in this paper. It has already sequired a circulation which extends over the whole Union, the contiguous South, Canada, and Germany, and by far exceeds that of any other German paper in the Union—its tendency being not of a local, but of a universal character. Besides this, the rates of advertising in both papers are exceedingly low, so as to enable every body to advertise who can be profited by it.

IL Publishers will oblige by early communicating copies of new publications which will be critically noticed. We intend to furnish the German public here, and on the other side of the Atlantic, with a complete review of all productions of the American press worthy of notice.

Dr. Peters' Worm Lozenges are the surest and safest worm destroyer ever discovered.

It is estimated that, in the United States, 100,000 children die yearly from the effect of worms alone. This vast mortality can be almost entirely prevented by the use of Peters' celebrated Lozenges. Thousands and tens of thousands pine away and die without suspecting the real disease. The following are a few of the symptoms: headache, pale lips, flushed checks, disturbed dreams, feverishness, thirst, bad taste in the mouth, offensive breath, itching of the nostrik, pain in the stomach, nausea, unnatural appetite, swelled stomach or limbs, sense of something rising in the chest, &c.

Those who say it can are imposters and quacks. Still it may be prevented or its progress stayed, by using Dr. Peters' Cough Lozenges. Begin in season. Do not neglect a slight cough until consumption has commenced its ravages. A delay of a few days of ten prove fatal. Price 25 cents per box. Peters' Cough Lozenges have performed some of the most remarkable cures on record. One trial of them is more satisfactory than a column of certificates. in the end, will prove more economical, independent of its adding so much to the beautiful appearance of buildings.

Specimens of this deservedly popular Glass may be seen in the New York Exchange and Custom House, Howard's Hotel, Bronson's Buildings, Broadway, Centre Market, and a great many private residences and stores in various parts of the city; also, in the Exchange and Custom House, Boston, Girard College, Philadelphia; Exchange Hotel, Baltimore; in the public buildings at Washington city; the Capital at Raleigh, North Carolina, and in many both public and private edifices throughout the United States. It has been used in a great number of steamboars and railroad cars, and given entire satisfaction. It is be ieved that the above will suffice to prove that this Glass stands pre-eminent, and that it deservedly merits the approbation of builders and consumers of Glass.

The Saranac Crown Glass is most used in strees and buildings of the second order, green houses, &c. where strength and clearness are particularly desired, and will range about 32/3 per sent alosper than Redford. The double thickness is always used for lighthouses, and is taken by the true economist for sky lights, steamboats, ships' cabin windows, &c.

Ground Glass for sky lights, churches, and artists' windows, furnished to any pattern or size. The Glass as carefully packed m stout boxes, nailed, and secured so as to be transported with safe y to any part of the United States.

For the more complete satisfaction of persons at a distance, who may not have an apport nity to examine this beautiful article, the following testimonials are respectfully offered for consideration.

Extract from the report of the committee of the American In titute, October, 1837: THE GREAT OBJECT GAINED!

Peters' Medicated Lozenges are the most valuable discovery of the 19th century. They are entirely pleasant to the taste, and more efficient than any other medicine. These Lozenges are the result of long continued and patient investigation and experiment, conducted in concert by some of the most distinguished physicians in the Union, who believing that some of the best known remedies might be prepared in a palatable form, have directed their labors to that end, till they have produced preparations in the popular form of Lozenges for nearly every disease incident to the human system.

To parents we would say, do not be without these Lozenges at any time—attend to these suggestions as you value the lives of your children.

PETERS' PILLS.

It is admitted by all who have used them, (and who has not?) hat Dr. Peters' Vegetable Pills are the most unrivalled medicine ever discovered by the ingenuity of man. They are a sovereign cure for the following complaints:—Yellow and billious fever and ague, croup, liver complaint, sick headache, jaundice, asthma, dropsy, rheumatism, enlargement of the spleen, piles, colic, female obstructions, heartburn, furtongue, nausea, distension of the stomach and howels, incipient diarrhæs, flatuleney, habitual costiveness, loss of appepite, blotched or sallow complexion, and all cases of torpor of the bowels, where a catharic or an aperient is needed.

They are exceedingly mild in their operation, producing neither nausea, griping, nor debility.

Dr. J. G. Smith, of Woodstock, Va., says—"They are a better Pill than I can make." He recommends their use.

Extract from the report of the committee of the American In titute, October, 1837:

"For richness of lustre and brilliancy of surface, as well as thickness at dispension, the Record Glass is the most beautiful article of the kind that has ever fallen under our notice, either of domestic or foreign production; and it affords a proud specimen of the skill and enterprise of American manufactures."

The following gentlemen, Architects, have permitted us to use their names in commendation of the above Glass:

Chesnut, st., Philadelphia. MISSOURI CURRENT-RIVER COPPER MINES.

WOULD now ask the attention of capitalists to these Copper Mines, rich in ore, yielding from 40 to 66 per cent. of copper, which, by a single process of smelting, is equal to the South American refined pig—so pronounced by Messrs McKim & Co., of Baltimore, to whom several shipments were made by the "Mine a la Motte Mining Company." Situated near the junction of Jack's Fork and the Current river, within half a mile of either stream, and near waterpower for all manufacturing purposes, and under a susiny clime, in the vicinity of agricultural lands equal to the best in Missouri; surrounded by hills bearing inexhaustible foreats, and rising to mountains whence flow pure and never-failing springs, forming navigation six months in the year,—Nature, with a profuse hand, seems to have omitted but few facilities for manufacturing, and transporting the product of the copper mines. Believing this property, of all the vast and fertile Mississippi valley, may be made the most safe and profitable investment of capital, I will propose a disposition of a portion, (by sale or otherwise) on there is terms by which to enlist the agreements.
